

Workshop XV Purpose & Agenda

To advance the recommendations in the NAS (2009) report concerning issue identification (problem formulation) and all aspects of risk assessment and management, through selection of illustrative research case studies for further development

Texas Commission on Environmental Quality (TCEQ)

November 13, 14, and 15, 2024

Day 1: Wednesday, November 13, 2024

Chair: James Bus, Exponent

Welcome: (12:30 to 12:45)

- Commissioner, Texas Commission on Environmental Quality (TCEQ)
- **Neeraja Erraguntla**, Member of the ARA Advisory Panel
- TBD, Member of the Science Panel

Keynote Talk: TBD (12:45 to 1:30)

- TBD

Case Study 1. Potency thresholds modeled using human estrogen receptor alpha: implications for identifying endocrine disruptors [**TENTATIVE**] (1:30 to 2:30)

- TBD

Afternoon Break (2:30 to 3:00)

Case Study 1 Continued... (3:00 to 5:00)

- TBD
- Discussion by the Science Panel
- Comments from Observers

Social open to all attendees (5:30 to 6:30)

<<< >>>

Day 2: Thursday, November 14

Chair: Marc A. Williams, Defense Centers for Public Health

Case Study 2. TBD (8:30 to 10:00)

- Texas Commission on Environmental Quality (TCEQ)

Morning Break (10:00 to 10:30)

Case Study 2 continued (10:30 to noon)

- TBD
- Discussion by the Science Panel
- Comments from Observers
- Chair's Summary

Lunch (noon to 1:00)

Case Study 3. [**Case studies nominations are being solicited**] (1:00 to 2:30)

- TBD

Afternoon Break (2:30 to 3:00)

Case Study 3 continued: (3:00 to 4:30)

- TBD
- Discussion by the Science Panel
- Comments from Observers
- Chair's Summary

Day 3: Friday, October 19

Chair: Tracie Phillips, Texas Commission on Environmental Quality

Updates on Risk Assessment Methods (8:30 to 10:00)

- Inhalation Exposure Safety Evaluation of Fragrances Using New Approach Methods: Current Practices and Future Direction
 - **Nikaeta Sadekar**, Research Institute for Fragrance Materials (confirmed)
- Framework for Low Volume Electro-plating and Pre-Manufacturing Notification (confirmed)
 - **Britt McAtee**, PPG
- Achieving the Goal of Eliminating Mammalian Toxicity Studies by 2035 for Agrochemical Assessment: Human Health Risk Assessment (pending)
 - **Douglas Wolf**, Syngenta

Morning Break (10:00 to 10:30)

Updates continued (10:30 to noon)

Alliance for Risk Assessment (ARA): Beyond Science and Decision Workshop XV

- Fish Consumption Benefits and PFAS Risks (confirmed)
 - **Ali Hamade**, Oregon Health Authority
- International Collaboration on the safe dose range for PFOS (pending)
 - TBD
- **[Presentation nominations are being solicited]**

Chair's Summary

Lunch (noon to 1:00)

Open Discussion: All Participants (1:00 to 2:00)

Summary of the Workshop: (2:00)

- Chairs of the Workshop
